

Roach Preparation Checklist

Step 1. Empty out all your kitchen cabinets and place these items in another room, other than a bathroom. Try to build a tight pile or stack.

Step 2. Clear the kitchen counters of any appliances, food storage canisters, toasters and such. Put these items in the room with the items from the cabinets. Clear the kitchen of any food.

Step 3. Empty the bathroom cabinets, storage areas and clear the counters, putting these items with your pile from the kitchen. Remove soaps, shampoos, and shower products and body brushes.

Get prepared for everyone to leave 1-2 hours, any pets must be placed in the farthest room from the kitchen , birds also , remove food, water and any other animal items away from the kitchen .Turn off fish tanks aerator.

If items are not emptied from the cabinets , we will remove ourselves so we can complete the service, and we will charge an extra \$50.00 to our services. It is our desire to control the roach infestation in your home, we hope is it your desire to comply with our instructions. For a successful treatment

When you return to your unit please clean up any dead activity before putting your stuff back in the kitchen cabinets .
